# TCA Ground School

## Get right for flight...

Third Coast Aviation LLC ('TCA') wants you to be prepared before you get into the air with our classroom based ground school program. Taught by pilots with thousands of flight hours, our TCA Ground School helps you get prepared for FAA required pilots' test while also ensuring that you are a safe and competent student pilot before taking the yoke. Ensure your flight enjoyment by getting this out of the way prior to going through our TCA Aviation Career path. TCA Ground School includes:

- ✓ History of aviation
- ✓ Fundamentals of aerodynamics
- ✓ Aircraft systems
- ✓ Aircraft powerplant, electrical and fuel systems
- ✓ Aeromedical factors
- ✓ Aviation weather
- ✓ Aviation navigation & airspace system
- ✓ Night operations
- ✓ FAA knowledge test preparation
- ✓ FAA written test provided at FAA certified testing facility

- Taught by certified flight instructors (CFI, CFII, MEI) and commercial pilots
- Scheduled once per quarter
- 8 weeks
  - Tuesday 6 – 9 PM classroom
  - Thursday 6 – 8 PM classroom, 8 – 9 PM open discussion
- Meals provided each evening

For more information, call (832) 598-1367  
Stacey Bird ([stacey@thirdcoastaviation.com](mailto:stacey@thirdcoastaviation.com)) or Tony Boulanger ([tony@thirdcoastaviation.com](mailto:tony@thirdcoastaviation.com))

Other services that TCA provides at LBX include:

- ✓ FAA part 61 flight school services provided in packages such as "Private Pilot", "Instrument Rating", and "Commercial Pilot" packages.
- ✓ FAA part 135 Charter Services for business and personal private round trips or multi-stop itineraries.
- ✓ Aerial Observation & Survey Program support takeoff and landing at LBX for aerial photography, emergency personnel support, survey and surveillance.
